Our wine philosophy is straightforward. In terms of style, we look for wines of balance, wines that are true to type (representative of their origins), and wines that will complement our food menu; the focus is of course fresh fish and seafood. Therefore, there is a natural bias towards white wines, although we consider there to be something appealing to everyone.

We work with small suppliers who have developed relationships with a strong portfolio of small, quality-focused wine producers. Wherever possible, we prefer to offer these wines to our customers as, in our opinion, not only do smaller producers inevitably offer a superior combination of quality and value for money, many of those that appear in our list are benchmark producers for their region.

We have taken much pleasure in creating our wine list and we have a number of wines, including a couple of our favourites, from the Gavi di Gavi, which is good with or without food and we have fond memories of visiting vineyards, one of our favourite estates - Brokenwood in the Hunter Valley.

We do hope that you enjoy our selection and welcome your comments and feedback.

*Simon & Sian*

As we prefer to work with smaller wine producers, there are the odd occasions when a wine is unavailable, although we aim to keep this to a minimum.
